Section III: Detention

In April, the Charles H. Hickey, Jr. School held their first family engagement prom dance for youth and their mothers.

Introduction to Detention

DJS operates seven detention facilities across the State to provide temporary and secure custody of youth subject to court jurisdiction. Youth may be detained at various points in the juvenile justice system. The juvenile court may order detention for youth pending a court hearing (pre- or post-disposition), pending initial placement in a committed program, or pending placement in a committed program post-ejection. Youth are most commonly detained for new complaints alleging delinquent behavior, writs and warrants issued by the court, or violations of alternative to detention (ATD) program conditions. Note that DJS detention facilities may additionally serve youth pending adult criminal charges while the transfer of jurisdiction from adult to juvenile court is being considered (see "Youth Charged as Adults Pending Transfer" on page 116).

DETENTION PROCESS

The decision whether to detain a youth is driven primarily by the juvenile court. However, juvenile detention may be authorized by DJS intake officers on a temporary basis at the request of a law enforcement officer or community detention officer. DJS is empowered by statute to detain a youth who either poses a clear risk to themselves/others, or is deemed likely to leave court jurisdiction. This emergent decision is guided by the Detention Risk Assessment Instrument (DRAI) (see Appendix F) and is subject to court review on the next court day. The DRAI objectively informs the detention decision by taking into account three factors: (1) the risk that a youth will reoffend or fail to appear for a court hearing, based on known risk factors in the youth's history; (2) the seriousness of the current alleged offense; and (3) factors requiring a mandatory hold regardless of risk or offense, including an outstanding writ or warrant, interstate hold, etc. Based on these three factors, the DRAI recommends either release, placement in an ATD, or detention.

DETENTION ADMISSIONS

Each detention facility operates an admissions area 24 hours a day where all youth admitted to detention are processed. An admissions officer interviews youth to collect and verify basic identifying information. The admissions officer also performs a search of the DJS information system, ASSIST, to obtain available information on a youth's delinquency and placement history. A photograph of each youth is taken and included in the case record for identification purposes. The rules of the detention facility, including the grievance procedure, are provided to each youth in the facility handbook. Youth are issued clothing to wear in the facility. Personal clothing is catalogued, packaged, and placed in secure storage.

The admissions process includes an initial health screening. It is performed by admissions nursing staff and consists of a review of physical health, mental health, and substance abuse needs. A full medical history and physical examination is conducted by a licensed physician or nurse practitioner within seven days of admission.

DETENTION CASE MANAGEMENT

Youth who are detained by the juvenile court are assigned a DJS community case manager and a facility case manager. The community case manager is based in the local DJS office within the youth's home jurisdiction. To complete a Social History Investigation, the community case manager visits the youth in detention, interviews the youth and family, and completes the Maryland Comprehensive Assessment and Service Planning (MCASP) Risk Screen and Needs Assessment. The facility case manager acts as a liaison with the court, family, community case manager, and treatment service providers while the youth is in detention.

Services Provided in Detention Facilities

BEHAVIORAL HEALTH SERVICES

DJS Behavioral Health Services (BHS) is responsible for establishing and implementing policies governing the delivery of mental health, substance abuse, and evidence-based treatment services to youth under DJS supervision. BHS maintains a staff of licensed, certified counselors and contractors to provide complete assessments and necessary services. BHS provides integrated mental health and substance use disorder screening, assessments, and short-term crisis services in DJS detention facilities.

Upon admission to a detention center, each youth is screened by a qualified mental health professional. The screening consists of an interview, the administration of tests as appropriate, and the review

of any prior assessments or records (e.g., psychosocial or clinical assessments). If the initial mental health screen reveals mental health concerns, recommendations are made for more in-depth assessments or additional services. Further in-depth assessments, conducted by psychiatrists or licensed psychologists, examine the emotional, adaptive, and cognitive functioning of detained youth with greater mental health issues.

Additionally, certified addictions counselors screen and assess youth in detention and determine appropriate levels of substance abuse treatment needs. This information assists case managers in linking youth with appropriate community and residential services. Addictions counselors work closely with the Department's medical director for those youth requiring medication management as a result of their drug addiction.

EDUCATIONAL SERVICES

The Maryland State Department of Education's (MSDE) Juvenile Services Education (JSE) program provides educational programming to youth in DJS detention facilities consistent with the requirements of the Code of Maryland Regulations (COMAR), Title 13A. The program includes instruction in Core Content subjects, Career and Technology Education, library/media services, life skills, and special education services. Students are pre-tested upon entry to the JSE program to assess baseline academic skills. Teachers use the results to design learning plans for each student that form the basis of daily instruction. After each 30-day period of enrollment, the student is post-tested to determine academic gains. Students in a JSE program can earn credit toward the Maryland High School Diploma that they may receive upon return to their home high school. Alternately, some students are enrolled in classes designed to prepare them to take their GED examination.

RECREATIONAL SERVICES

A structured recreation program is available to all youth in detention. The recreation program provides a variety of activities promoting physical and mental health. Youth participate in recreational activities for a minimum of one hour per day.

Pending Placement

PENDING PLACEMENT (POST-DISPOSITION)

Youth who have been committed to the custody of the Department for residential placement may be placed in detention on a temporary basis by the juvenile court. Youth detained post-disposition are considered to be 'pending placement' as they are waiting to be admitted or placed in one of many possible out-of-home committed treatment programs.

Youth who are pending placement receive the same core services as youth detained prior to disposition, including educational services, screening, evaluation, and treatment for substance abuse, mental health, and somatic health (including dietary and dental).

Youth receive bi-weekly visits from their community case manager. Each facility also allows family visitation during the week or on weekends (the visitation schedule varies by facility).

A review hearing is held in accordance with Md. Code and Judicial Proceedings, 3-8A-15(k) for any youth in detention 25 days after the court has made a disposition. At the hearing, DJS is required to explain the reasons for continued detention. The court will continue to conduct a hearing every 25 days thereafter until a youth has been placed.

During the pending placement period, the community case manager maintains contact with the youth's family. The community case manager is also responsible for reporting to the juvenile court regarding the youth's placement status. In addition to court review, pending placement cases are reviewed by the Department on a weekly basis at facility management meetings. Regional-level meetings are held on a monthly basis to review placement statistics and identify barriers to placement and ways to expedite the process.

PENDING PLACEMENT AFTER EJECTION FROM A COMMITTED PROGRAM

Some youth committed to the custody of the Department cannot be safely maintained in their program and must be ejected. Youth ejected from a committed program who require a new committed placement are often placed in detention. Those with a new offense would be considered Pre-Disposition (Pre-D).

While detained pending a new placement, the Department's Central Review Committee (CRC) re-evaluates the youth's case, and works to secure acceptance to the most appropriate, alternative program. Youth placed in DJS operated facilities are transferred within 7 days of the CRC decision, provided there is available bed space.

A Note to Readers:

It is strongly recommended that readers review the following distinction as it will assist in understanding data presented in this section:

Placements versus Admissions: A placement is based on a decision made by an intake officer or judge to place a youth into detention. An admission occurs when a youth physically enters a facility either through direct placement or through transfer. Therefore, during one placement, a youth may have several admissions and these counts will not match.

Total Statewide Activity for Detention Centers

Total Capacity: 411 beds

DJS owns and operates seven detention facilities across the state. Each facility houses a population of juveniles awaiting disposition (Pre-D) and also houses juveniles who are post-disposition (Post-D) awaiting placement in a committed program. The ejection population represents youth returned to detention following removal from a committed residential program, who have no new offenses requiring court processing, and who need a new committed placement. Data presented here do not include youth charged as adults pending transfer (see pages 116-117).

Under Age 13 Statewide Activity for Detention Centers

Youth under 13 who are detained by the court represent very few of the youth in DJS detention centers. Rather than placing these youth in a detention facility, DJS most frequently uses an alternative to detention (ATD) with placement at home or in a shelter. However, if a youth must be in a detention center they are housed with youth closest in age and size. If deemed highly vulnerable they may be placed in the infirmary, with one-on-one staff supervision or sent to a smaller facility with a lower population. Wherever placed, youth under 13 receive all the same services as other detained youth.

Youth of Color Statewide Activity for Detention Centers

The data shown in this section provides additional detail for youth of color (non-white youth). Although each summary page in the Data Resource Guide Detention Section provides an overall race/ethnicity breakdown for detention placements in the Demographics table, the tables in this section show more detailed information on placements and ADP by type and Region, offense type and severity, and length of stay for youth of color as a whole. Data presented here do not include youth charged as adults pending transfer (see pages 116-117).

Youth Charged as Adults Pending Transfer

Youth ages 17 and under alleged to have committed a criminal act excluded from juvenile court jurisdiction may be held in pre-trial adult detention facilities. MD law provides an avenue for the adult court to order a youth to be held in a juvenile detention facility if he or she is eligible for transfer of jurisdiction (Md. Code, Criminal Procedure, §4-202). These youth may be held in juvenile detention pending a transfer hearing to determine if jurisdiction should remain in the adult court or be transferred to the juvenile court. Data in this section represent youth held in DJS detention facilities for the adult court pending a transfer hearing. This section also provides information on youth whose complaints were transferred to the juvenile court (who may or may not have been detained during the report year.)

Starting in July 2013, DJS entered into agreements with localities to utilize the current law more consistently resulting in higher numbers of such youth held in DJS facilities.

Alternatives to Detention (ATD)

DJS has a variety of programs designed to safely supervise youth in the community as an alternative to detention. ATDs include Community Detention (CD) - with or without Electronic/GPS Monitoring (EM), and Day & Evening Reporting Centers (D/ERC). In addition, DJS collaborates with private programs to provide additional alternative programming. These programs include the Pre-Adjudication Coordination and Transition Center (PACT) and the Detention Reduction Advocacy Program (DRAP) for Baltimore City youth, as well as Hearts and Homes for Youth, Inc. which operates a D/ERC in Montgomery County. Shelter beds may also serve as an ATD in circumstances where release-eligible youth are unable to return home. ATD programs are used either by DJS intake staff for medium-risk youth presented for detention (placements must be reviewed by the juvenile court the next court day) or by the juvenile court directly. These alternatives allow youth to continue with school or work and maintain community ties, support systems, or alternative care. Youth on ATD supervision are expected to appear for scheduled hearings and not have any new arrests.

[1]The offense tables on the other ATD pages report CD/EM combined so if a youth is transferred from CD to EM or vice versa, the youth is counted as one admission. This table separates out CD from EM, so the sum of this total will be slightly higher than the offense table totals presented on the other ATD pages.
